# SPC Milestone Plugin

## How to activate your licence

- In order to activate the plugin
  - Please provide us the SLC license code per email with the Vanderbilt purchase order no as reference.
  - Send it to [orders.international@acre-int.com](mailto:orders.international@acre-int.com).
    - (Activation will be performed within 3-4 working days)
- Special remark for sites without internet access:
  - Once the SLC has been successfully updated with the SPC plugin support on the Milestone portal, the next steps is to export the license request file (xxx.lrq) from the local Milestone server.
  - Upload this file onto the milestone portal to request a new license file for this milestone VMS installation
  - Take the generated license activation file (xxx.lic) and upload it to the local Milestone server.
  - All those steps can only be done by the system integrator having local access to the Milestone server.
